

Order Process

Order car

In Order Processing - Unscheduled - Material Hold

The order is on-hold pending resolution of a production hold for material availability.

In Order Processing - Unscheduled - Clean

The order has been received, successfully edited, and is awaiting scheduling action.

In Order Processing - Scheduled to Week

The order has been assigned to a plant and scheduled to a week (displayed). This is when the VIN is issued (call your dealer for the VIN) and the Window Sticker is available. Ask your dealer for the build day.

In Order Processing - Scheduled to Day

The order has been assigned a build day (displayed) and a rotation number. It is 'locked-in' and cannot be amended. Ask your dealer for the build week.

In Production - Sent to Plant

The order has been submitted to an assembly plant.

In Production - Body Shop

The vehicle is in the first stage of production.

In Production - Trim Line

The vehicle is in the second stage of production.

In Production - Produced

The vehicle has been produced.

Awaiting Shipment - Released

The vehicle has been released from the plant to a carrier and is awaiting shipment.

Awaiting Shipment - Received

The vehicle has been received by a carrier at a ramp location. The yard location may display. The carrier name displays in parenthesis.

In Transit - Shipped Rail

The vehicle has been shipped from the plant via rail. The railcar number displays. The carrier name displays in parenthesis.

In Transit - Shipped Convoy

The vehicle has been shipped from the plant via convoy. The convoy number may or may not display. The carrier name displays in parenthesis.

In Transit - Arrived at Rail

The railcar/vehicle has arrived at a mixing center or ramp and is available for unloading. The railcar number displays. The carrier name displays in parenthesis.

In Transit - Received

The vehicle has been received by a carrier at a ramp location. The yard location may display. The carrier name displays in parenthesis.
